CONSULTANCY POLICY

This policy establishes the principles and practices of Green Technologies Technical Services Sdn. Bhd. (GreenTech) in providing radiation consultancy services. It ensures compliance with national regulations, international standards, and best practices in radiation safety, health, and environmental protection. It applies to all consultancy activities involving radiation safety, monitoring, training, and advisory services delivered to clients in industries handling radioactive materials, nuclear energy, or radiation-emitting devices.

GreenTech achieve this commitment by

- *Delivering accurate, reliable, and ethical consultancy services in radiation safety and management.*
- *Complying with Atomic Energy Act and its Regulations, IAEA safety standards, and relevant ISO requirements.*
- *Confidentiality of client data and operational integrity will be strictly maintained.*
- *Continuous improvement in radiation safety practices will be pursued through training, audits, and stakeholder engagement.*

The objectives of the consultancy services are to safeguard workers, the public, and the environment from harmful radiation exposure; support clients in achieving compliance with regulatory and certification requirements; promote awareness and competency in radiation protection through training and advisory programs and ensuring consultancy services are delivered with professionalism, transparency, and technical excellence.

The Management shall ensure resources, training, and compliance with legal and regulatory frameworks. The consultant shall provide accurate assessments, recommendations, and documentation in line with standards. The clients shall implement recommended measures and cooperate in audits, monitoring, and reporting.

Zainiruddin Hanur Harith
Executive Director

Dated : 01 January 2026

RADIATION CONSULTANCY PROFILE

Green Technologies Technical Services Sdn. Bhd. (**GreenTech**) Radiation Consultancy Services provide comprehensive technical advisory and regulatory support to organizations utilizing radiation sources and radiation-emitting equipment. We assist clients in achieving full compliance with Malaysian regulatory requirements, including licensing, documentation, safety program development, and audit readiness.

With a structured, risk-based approach, our consultancy covers radiation protection program development, regulatory submissions, workplace monitoring, risk assessments, and ongoing advisory support. **GreenTech** objective is to ensure safe operations, minimize radiation exposure, and strengthen organizational compliance frameworks in line with national regulations and internationally recognized radiation protection standards

GreenTech Radiation Consultancy Services provide comprehensive technical advisory, regulatory compliance support, and radiation protection program implementation for organizations utilizing ionizing radiation sources and radiation-emitting equipment. Services are delivered in accordance with the **Atomic Energy Licensing Act 1984 (Act 304)**, its subsidiary regulations, licensing conditions issued by **Atom Malaysia**, and aligned with relevant **IAEA Safety Standards** and **ICRP recommendations**.

The primary objective of our Radiation Consultancy Services is to ensure that client operations involving ionizing radiation are conducted safely, efficiently, and in full compliance with regulatory and international radiation protection standards, while minimizing occupational and public exposure risks.

1. SCOPE OF CONSULTANCY SERVICES

1.1 Regulatory & Licensing Support

- Preparation and submission of new license applications, amendments, and renewals
- Review of licensing conditions and compliance gap analysis
- Regulatory liaison and technical clarification support
- Development of mandatory documentation in accordance with Act 304 requirements

1.2 Radiation Protection Program (RPP) Development

- Design and implementation of Radiation Protection Programs
- Establishment of dose monitoring and control procedures
- Development of Local Rules and Standard Operating Procedures (SOPs)
- Classification of controlled and supervised areas
- Radiation Safety Committee advisory (where applicable)

1.3 Radiation Risk Assessment

- Hazard identification and exposure pathway analysis
- Qualitative and quantitative radiation risk assessments

Green Technologies Technical Services Sdn. Bhd. (641865-W)

No 806 C, Kompleks Diamond, Jalan Medan Bangi, Off Persiaran Bandar, 43650 Bandar Baru Bangi, Selangor.

Tel : 603 - 8210 0969 / 8211 1156; Website : www.green.com.my; E-mail : info@green.com.my

- Dose rate measurement and evaluation
- Optimization of protection measures based on ALARA principles

1.4 Workplace Monitoring & Technical Evaluation

- Radiation survey and area monitoring assessments
- Contamination assessment and control measures
- Evaluation of personal dosimetry programs
- Instrument performance verification and calibration coordination
- Review of radiation monitoring records and trend analysis

1.5 Audit & Compliance Assessment

- Internal compliance audits against regulatory requirements
- Pre-inspection readiness assessment
- Corrective and preventive action (CAPA) recommendations
- Documentation review and system strengthening

1.6 Emergency Preparedness & Response Planning

- Development of Radiation Emergency Response Plans
- Incident investigation support and root cause analysis
- Corrective action planning and reporting guidance

2. METHODOLOGY

GreenTech consultancy adopts a structured, risk-based, and compliance-driven methodology:

- Initial technical assessment and regulatory gap analysis
- Site evaluation and radiation survey (where required)
- Risk-based evaluation and control measure recommendations
- Documentation development and system implementation support
- Compliance verification and continuous improvement guidance

All services are supported by qualified personnel with technical expertise in radiation protection, regulatory compliance, and occupational safety management systems.

3. STANDARDS & REGULATORY ALIGNMENT

Services are aligned with:

- Atomic Energy Licensing Act 1984 (Act 304)
- Radiation Protection (Basic Safety Standards) Regulations
- Licensing conditions issued by Atom Malaysia
- IAEA General Safety Requirements
- ICRP Principles of Justification, Optimization (ALARA), and Dose Limitation
- Relevant ISO management system principles (where applicable)

4. DELIVERABLES

Depending on scope, deliverables may include:

- Radiation Protection Program Manual
- Risk Assessment and Technical Evaluation Reports
- Compliance Audit Reports
- Regulatory Submission Documentation
- Emergency Response Plan Documentation
- Technical Advisory Reports and Corrective Action Plans
- Security Plan Documentation
- Post Audit Report and Corrective Action Plans

5. REFERENCE GUIDELINE

The consultancy services provided is based on the guideline document issued by Atomic Energy Department known as

'Pengiktirafan dan Tugas Pengendali Perunding'

LEM/TEK/40 Sem.3

[LEM-TEK-40 Sem. 3.pdf](#)

In the guideline the job scope and the responsibility of the consultant are clearly stated for reference guideline

6. LICENSE BY ATOMIC ENERGY DEPARTMENT MALAYSIA (ATOM MALAYSIA)

GreenTech had been licensed by Atom Malaysia since 2006 to provide the consultancy service throughout Malaysia. The industries involved manufacturing, mineral, oil and gas, construction, trading/supplier, research and education sectors.

7. CONSULTANTS

At present, we have 5 full time and free lances consultants available for the service which based in Northern, Central and Southern regions of Peninsular Malaysia. Our consultants had more than 5 years' experience as Radiation Protection Officer or Radiation Supervisor in their previous company and more than 10 years as consultants in our company.

All our consultants have Category 3 Industry (I3) certification for Gauging and Mineral activities,

With their many years of experience, **GreenTech** is capable to provide the service to satisfy our clients.

8. LIST OF OUR SATISFIED CLIENTS

Our clients consisted from various industries throughout Malaysia. The consultancy services include the following request :

- i. To apply for new license application. These include to set up various radiation documentation, provision of survey meter and dosimeter and classification of working area. Please refer Sect. 1 for more details.
- ii. To provide service as external Radiation Protection Officer (RPO) due to resignation or expiration of RPO certification.

Most of our clients apply for Class A, C, D, E and H either individual Class or combination of Classes for their license

The service duration varies depend on the client's requirement or until the clients has their own registered RPO according to the Act.

The list of clients as follows :

1	Amlex Technology	18	CHH Pacific Paper
2	Amsito Oilwells*	19	Konsortium Intikhlis
3	Senzpak	20	Unisem
4	Voith Paper Fabrics	21	Yamaha Electronics*
5	Tenaga Cable Ind.*	22	Dyson Technologies*
6	Denshi Maruwa Ind.	23	United Parcel Service*
7	Ulvac*	24	Seng & Kian Enterprise*
8	Yoshiden	25	Archer Well Company*
9	Inversys Corporation*	26	Matsuda Sangyo*
10	Bredero Shaw*	27	Nimrod Engineering
11	Innovation TS-Flex	28	Prestar Precision Tube*
12	Central Cables*	29	LSM Metal*
13	Cameron International*	30	Integrasi Perkasa*
14	Aztec Sinar*	31	LSM Metal*
15	Qualitek Electronics	32	Mastek Oil Tools*
16	Shinyei Keisha*	33	Brahim's Food Services*
17	SII Ishikazi	34	DKSH Technology
